

Cash Flow Planning & Forecasting Self-Study Webinar (10 Hours)

SO02824D
SO028

Self Study Webcast
Dec 20 - Dec 21

Overview:

Forecasting cash flow accurately and maintaining liquidity are even more critical in an uncertain economy. And the better the forecast, the better your company's profitability! In this cutting-edge self-study webinar, experts from some of the most prominent companies in the country, including IBM and McAfee, will share how they plan and forecast cash flow and their best practices in cash and treasury management. Our team of experts will also discuss:

- The changing landscape and techniques of forecasting
- Using free cash flow to support investor and shareholder returns
- Utilizing emerging technologies and AI to achieve more accurate results
- Working capital forecasting and management

Objective:

To enable accountants and financial managers to achieve greater profitability with more effective cash flow planning and forecasting. Participants will learn how to augment their forecasting skills using the most current financial methodology as well as "outside-the-box" thinking.

SPEAKERS:

Patrick Balestrieri, FPAC, CTP, CFO & Enterprise Value Consultant

Matthew Charney, Senior Treasury Manager, IBM

Stuart Jones, Senior Director, Treasury, McAfee

Michael Kapala, Manager, Finance Automation, RSM

Luis Soto, Treasury Advisory Manager, RSM

Ron Stott, Value Engineer, Kyriba
