Self Study Webcast
Dec 20 - Dec 21

Overview:

Many organizations have gone through extensive efforts to comply with Sarbanes-Oxley and other internal control regulations to ensure accuracy in their financial statements. But financial statement controls cover only a small area of risk and often ignore the far greater risks resulting from weak operational and other financial controls. In this self-study webinar, you'll learn how to:

- Define acceptable levels of risk and the accountant's role in risk management
- Identify fraud and other risk factors
- Strengthen controls, limit risk and prevent fraud

Objective:

This targeted self-study webinar will provide you with a firm grasp of the common financial and operational risks that still confront companies and what you need to do, beyond insuring against them, to manage those risks.
