Self Study Webcast
Dec 20 - Dec 21

Overview:

ASC 820 defines fair value, provides a framework for measuring fair value, and requires extensive disclosures about fair value measurements. This program will supply you with:

- A high-level overview of the fundamentals of fair value measurement
- Guidance on how the valuation process is used in financial statement preparation
- An understanding of expanded disclosure requirements for recurring and nonrecurring items

Objective:

To provide accountants, financial analysts and preparers of financial statements with the most current understanding of this complex topic. You will learn the principles put forth by FASB in relation to the concept of fair value, as well as their practical application.
