

Fair Value Accounting Overview Self-Study Webinar (5 Hours)

SA279423F
SA2794

Self Study Webcast
Dec 20 - Dec 21

Overview:

ASC 820 on fair value accounting represents a dramatic shift in historical cost accounting. Learn how to determine what functions drive fair value, and what impairment measurements companies must make regarding tangible assets, goodwill and intangibles. In this self-study webinar, you will get a refresher on fair value, and learn about:

- The accounting rules in Topic 820
- How Topic 805 (Business Combinations) relates to Topic 820
- Implementing goodwill testing in Topic 350 (Intangibles—Goodwill and Other Intangibles)
- Determining tangible asset impairments
- Issues frequently encountered in fair value
- The impact of COVID-19

Objective:

To provide accountants, financial analysts and preparers of financial statements with the most current understanding of this complex topic. You will learn the principles put forth by FASB in relation to the concept of fair value, as well as their practical application.

[Detailed Learning Objectives](#) [1]

Emphasis:
