

Real Estate Accounting & Reporting Self-Study Webinar (10 Hours)

SA00223G
SA002

Self Study Webcast
Dec 20 - Dec 21

Overview:

Broaden your understanding of real estate accounting. Work through problems and case studies that illustrate practical application issues. In this self-study webinar you'll benefit from:

- Up-to-date discussion of the impact of current developments on financial accounting issues
- Analysis of recent pronouncements regarding real estate transactions
- Strategies and techniques to help you deal more effectively with lenders and other financial statement users

Objective:

To review the prescribed and/or preferred accounting principles for the recording and reporting of real estate development, operations and sales, including common construction accounting issues faced by real estate developers. The self-study webinar will also discuss current and proposed changes in real estate accounting, with an emphasis on making meaningful financial presentations for real estate entities, including partnerships and other investment vehicles.

[Detailed Learning Objectives](#) [1]

Emphasis:

- Update of FASB statements and proposals, including ASC (Accounting Standards Codification)
- Informative and useful financial statement presentation and disclosures
- Accounting for impairment of long-lived assets and for long-lived assets to be disposed
- Bonding, common fraud schemes, mechanic's lien laws and other common statutes relevant to the industry
- Choice of entity issues facing the industry
- Profit recognition
- Accounting for acquisition, development and construction costs
- Cash flow reporting
- Variable interest entities and consolidation rules
