

## Impairments & Intangibles: Current Accounting Issues Self-Study Webinar (10 Hours)

SA21424C  
SA214

Self Study Webcast  
Dec 20 - Dec 21

### Overview:

Accounting for asset impairments and intangibles can be a minefield even for the seasoned professional. Accountants and auditors need a clear understanding of how to determine whether assets have become impaired and, if so, by how much. This self-study webinar will enable you to:

- Understand the latest financial accounting issues surrounding intangibles and asset impairments
- Deal with practical issues in determining fair values and using cash flows for impairment evaluation
- Evaluate and follow the requirements for goodwill impairment testing
- Follow new and proposed guidance from FASB
- Identify COVID-19 issues

### Objective:

To provide accountants with a comprehensive knowledge of accounting principles concerning impairments of assets, intangibles, capitalization and goodwill. You'll learn the latest thinking regarding capitalizable assets, impairment, depreciation and amortization, deferred taxes and special issues associated with intangibles.

[Detailed Learning Objectives](#) [1]

### Emphasis:

- Testing impairment of goodwill, and other intangibles with an indefinite life, including recent guidance
